SUMMARY

Member of Technical Staff at Zoho with around three years on **Vani**, a real-time, infinite-canvas collaborative whiteboard. I work on the cross-platform editor in C++, WebAssembly, and JavaScript on the Skia rendering engine, help maintain its Connectors module, and have recently been working on its AI features.

EXPERIENCE

Member of Technical Staff — Zoho Corporation (Vani) 2023 – Present

Chennai, India · Client & Editor Development

- Work on the editor for **Vani**, Zoho's collaborative whiteboard — an infinite-canvas tool for real-time, multi-user collaboration.
- Contributed to migrating the editor's rendering from **SVG to a C++/Skia engine (WebGPU)**, which improved in-browser rendering performance and allowed a single codebase to run across web, macOS, Windows, and Android.
- Help maintain the **Connectors** module, building and shipping features in C++, WebAssembly, and JavaScript.
- Worked on the platform's **AI features** in Java, generating per-board **embeddings** stored as SQLite files, and have been exploring how to provide the board's visual context to an LLM.
- Contributing to an upcoming agentic-whiteboard feature alongside the team, with a focus on orchestration and SDK work.

TECHNICAL SKILLS

Programming Languages	Java, C++, JavaScript
Graphics & Rendering	Skia, WebGPU, WebAssembly
Build Toolchain	Emscripten, CMake, Git
Real-time Collaboration	WebSockets, Operational Transform (OT)
AI	LLM integration, embeddings, context extraction
Web / Frontend	HTML, CSS, SCSS
Databases	PostgreSQL, SQLite

PROJECTS & INTERESTS

- Build side projects with **Next.js**, **Prisma**, and **Tailwind CSS** to simplify everyday tasks.
- Explore open-source projects such as **Excalidraw**, **Supabase**, and **Payload CMS** to study how they're engineered.

EDUCATION

B.E. Computer Science and Engineering 2019 – 2023

Misrimal Navajee Munoth Jain Engineering College, Chennai · CGPA: 8.65

LANGUAGES

Tamil (native) · English (professional — read, write, speak) · Kannada (conversational)
